What is ICM and what does it offer?

International Credit Mobility (ICM)

Mobilities for students and staff within Europe, financed by the EU, has been a reality for more than 25 years within the well-known Erasmus programme. Within the current framework programme Erasmus (2014/2020), the EU has now introduced a new programme for such mobilities between Europe and non-European countries – International Credit Mobility – ICM.

What is ICM and what does it offer?

BA/MA Students and doctoral candidates are able to study abroad for a period of three months (or one academic term or trimester), up to a maximum of 12 months in each study cycle and may benefit from an Erasmus+ grant.

Staff can spend a teaching and/or training period abroad from five days (excluding travel) to a maximum of two months and may also benefit from a grant. The grant for staff may provide funding for two additional days of travel (one before and one after the mobility).
